

CHRISTOPHER CHONG

SENIOR ASSOCIATE

Christopher's strong suit in project management has led him to oversee a team of designers through several high-value and large-scale projects

QUALIFICATIONS

Bachelor of Architecture - 2005
Bachelor of Planning and Design - 2000
University of Melbourne

SUMMARY

With over than 20 years of working experience for both architecture and contractor firms, Christopher has acquired design and in-depth construction experience. Since joining SAA in 2013, he has played an integral role in overseeing the design, development and construction of several large scale projects and was promoted to Senior Associate in 2018.

Currently, Christopher is involved with multiple large projects such as the mixed-use development of Citygate in Singapore and the transport development of Klang Valley Mass Rapid Transit Line 2, in Malaysia. Having a team on each million-dollar projects, he has efficiently split up his time and made use of his expertise in design requirements and detailing to ensure that they are done to the highest quality.

Christopher is detail-oriented and has a collaborative view of construction management, producing effective solutions that contributed to the successful completion of Changi Airport Terminal 4. He worked closely with builders of each trade on this project to solve various construction and coordination details. His level-headedness holds teams together during tight timelines to bring the project to fruition, and his years of experience has equipped him to be well-versed with the implementation of construction technical details as well as administration and local authority regulations.
