SUMMARY

As a Senior Associate Director in SAA, Don brings more than 23 years of practical professional experience to his projects. As one of the company's Infrastructure team leaders, Don oversees the design process and project implementation of the Singapore Mass Rapid Transit (MRT) Projects. His first package, comprising of five stations (MRT Circle Line) was completed on time, within budget and to the satisfaction of the client, Land Transport Authority, Singapore.

Don is a dedicated and assertive leader who joined SAA in 2005. He is acknowledged for his ability to foresee implications upfront to make prudent project management decisions. His calm and collected demeanor allows him to perform well under pressure. He consistently delivers projects on time and with high quality, such as the award winning premium residential project, St Thomas Suites Condominium.

His years of experience and level-minded approach has fostered relationships of trust amongst stakeholders, allowing project issues to be resolved swiftly and building strong working relationships within the team. Don is also in charge of the ISO processes and standards in SAA and upholds it to the high standards that can be seen in the firm's award winning projects. His diligent mentorship has built up many strong leaders in SAA's infrastructure team, and has adopted the same methodical precision.
